

BILLING INFORMATION
POST-MORTEM ICSI
(Intracytoplasmic Sperm Injection)

EQUINE EMBRYO LABORATORY

November 2017

Thank you for choosing Texas A&M University's Equine Embryo Laboratory for the reproductive work with your valued mare.

While **collection** of the ovaries from your mare is billed by your veterinarian, the fees for working with your mare's ovaries and oocytes are charged directly from the Equine Embryo Laboratory. **Please Note** that these fees include:

- \$500 for ovary dissection, oocyte collection, and oocyte culture for maturation. \$100 for oocytes recovered by the referring veterinarian and shipped to the lab for culture.
- \$700 for performing sperm injection (ICSI) on oocytes that have matured
- \$200 for preparation of semen from first additional stallion desired for ICSI
- \$750 for each blastocyst (transferrable embryo) produced
- \$165 for each shipment of blastocysts for transfer
- A surcharge of \$200 will be assessed if ovaries are processed after working hours (after 6:00 PM or on holidays). An additional surcharge of \$200 is also assessed in cases in which ICSI must be performed after-hours.
- \$300 for embryos vitrified in off-season cases or at the preference of the owner

To enable our lab to perform the work with your horse, enclosed is a credit card authorization form to be completed and returned as soon as possible. You will have the choice of charging fees to your card (this incurs a 3.1% processing fee) or paying by check within 60 days of receiving the invoice for our services. The invoice will be sent after the outcome of the ICSI is known. If payment is not received within 60 days of the date of the invoice, your credit card will automatically be charged **without notice** for the amount of the invoice, plus the 3.1% processing fee.

We ask that you **COMPLETE, SIGN, and RETURN** the Equine Embryo Laboratory credit card authorization form. Credit card information is **REQUIRED**, regardless of the method of payment. **Please fax (979-845-0967) or email (ajjones@cvm.tamu.edu) the signed authorization to our office.**

Thank you once again for choosing our laboratory. Our team looks forward to providing you with the best service possible. If you have any questions or concerns please feel free to contact Ms. Kindra Rader at the laboratory, (979) 458-3894 or on her business cell, (979) 219-7543.

EQUINE EMBRYO LABORATORY FEES

Please note that while fees for oocyte, embryo, or tissue *collection* are charged by your veterinarian (this includes the Veterinary Medical Teaching Hospital at Texas A&M), the fees for working with your oocytes, sperm, embryos or tissue in the Equine Embryo Laboratory are charged directly to you by the laboratory.

You will receive an invoice from the Equine Embryo Laboratory for these services. You can pay either by credit card, which incurs a 3.1% processing fee, or by cash or check to Texas AgriLife Research.

Please note: If you choose to pay by cash or check, if payment is not received within 60 days of billing, we will charge your credit card *without additional notice* for the amount of the invoice, plus the 3.1% credit card fee.

By filling out and signing the credit card authorization below, you authorize AgriLife Research to charge to your credit card the fees incurred, as outlined above. **Note: On the form below, the amount and invoice number will be entered by us at the time of the charge.** Credit card information is **REQUIRED**, regardless of the form of payment checked below.

Please check one of the following boxes:

☐ **I choose to pay by check or cash to Texas AgriLife Research**

Credit card authorization will be held, and charged only if payment is not received within 60 days of billing.

☐ **I choose to pay by credit card to Texas AgriLife Research (incurs a 3.1% processing fee).** Credit card will be charged at the time of invoicing.

Please fax (979-845-0967) or email (ajjones@cvm.tamu.edu) signed authorization to our office.
