

DERMATOPATHOLOGY SERVICE

Joanne Mansell, DVM, MS, DACVP
Aline Rodrigues Hoffmann, DVM, PhD, DACVP

The Dermatopathology Service will provide quality interpretation of your skin biopsy specimens by a dermatopathologist (a board certified veterinary pathologist who has expertise in dermatopathology). We also offer a panfungal PCR and sequencing for formalin fixed paraffin embedded tissues. The assay can be run on different animal species and tissue samples. We would like to welcome you to our service and look forward to working with you.

Fee Schedule 2017-present

Histologic description with diagnosis and comments (charge assumes two H&E slides per submission) plus accessioning/processing fee (\$6.00)	\$85.00 + \$6
