Position Announcement

Food Animal Clinician

Department of Veterinary Large Animal Clinical Sciences
College of Veterinary Medicine and Biomedical Sciences
Texas A&M University-College Station

The Department of Large Animal Clinical Sciences, College of Veterinary Medicine and Biomedical Sciences, Texas A&M University invites applications for a full-time clinical track faculty position in Food Animal Medicine and Surgery at the academic rank of Assistant Professor, Associate Professor, or Professor based on experience. Candidates must have a DVM/VMD or equivalent degree. Applicants must be board certified or eligible to take the certifying examination of the American College of Veterinary Internal Medicine, American College of Veterinary Surgeons, American College of Theriogenology or American Board of Veterinary Practitioners. Applicants must meet requirements for special or regular licensure in the State of Texas.

The successful candidate will be expected to contribute primarily to the patient care and teaching missions of the College of Veterinary Medicine and Biomedical Sciences, while participating in collaborative research and other scholarly activities. Approximately 75% effort will be assigned to Patient Care and Clinical Teaching. The remainder will be dedicated to Didactic and Laboratory Teaching and Scholarship or Academic Service. The candidate must have experience, clinical competence, and interest in food animal medicine, surgery, and theriogenology.

The food animal group is currently comprised of 11 faculty members, 8 of whom are board-certified. Food Animal faculty members are distributed among 3 services in the Veterinary Medical Teaching Hospital including Food Animal Medicine and Surgery, Food Animal Field Services, the Texas Department of Criminal Justice, and the West Texas A&M Veterinary Medical Center- Canyon, Texas. The successful applicant will be assigned to Food Animal Medicine and Surgery and provide continuity of Patient Care and Clinical Teaching to house officers and students in the professional curriculum. In addition, the successful applicant will be assigned to after-hours emergency services on a rotational basis.

Food Animal facilities in the VMTH include 3 hydraulic chutes (2 tilt chutes), a hydraulic tilt table and an obstetrical working area. Standing and recumbent surgical suites are available for use by the Food Animal clinicians. The hospital has 13 indoor stalls, one isolation stall, and 4 covered outdoor pens for food animals. There are multiple diagnostic imaging modalities available, including digital radiography, ultrasonography, endoscopy, CT, and MRI.

A complete position description may be found here. Additional information about the department is available on our web sites (College of Veterinary Medicine and Large Animal Hospital). For more information on the Bryan/College Station area, please visit ExperienceBCS.com.

If you would like to join the established, progressive team in Food Animal Medicine and Surgery at Texas A&M University, please submit a) a statement of career goals, professional interests, teaching philosophy, b) your curriculum vitae, and c) 3 letters of reference to:
