POSITION ANNOUNCEMENT
Clinical Assistant or Associate Professor Small Animal Clinician Educator Position

The Professional Programs Office and the Department of Small Animal Clinical Sciences, College of Veterinary Medicine & Biomedical Sciences, Texas A&M University (http://vetmed.tamu.edu/) invites applications for a full-time, clinical-track, assistant or associate professor to serve as a clinician educator. The successful candidate will become part of the Professional Programs group within the Dean's Office, and will have an academic home in the Department of Small Animal Clinical Sciences within the College. Applicants must have a DVM degree (or equivalent) and must be board certified or have met the requirements to take a board examination in a specialty recognized by the AVMA American Board of Veterinary Specialties (ABVS), including ABVP. Applicants must be licensed or eligible for regular or special licenses to practice veterinary medicine in Texas.

As a clinician educator, this unique position includes a primary role in the three preclinical years of the DVM curriculum. The chosen individual will participate in instruction of the updated, integrated and highly experiential DVM curriculum. The individual will participate in multiple courses, including the Professional and Clinical Skills (PCS) course which is contiguous through the first six semesters of the curriculum. In this course students gain clinical skills in the simulation laboratory, professional skills, including communication, ethical decision-making, personal and professional finance and critical thinking skills through problem-based instruction. The successful candidate will become part of the Professional Programs group within the Dean's Office and will have an academic home in the Department of Small Animal Clinical Sciences in the individual's area of professional expertise and interest.

The successful candidate will devote up to 70% of his or her time to instruction in the preclinical curriculum with the remaining time devoted to clinical instruction of the fourth-year students, consultation and patient care in the Veterinary Medical Teaching Hospital in the area of his or her specialty.

Texas A&M University is the oldest public institution of higher education in Texas and one of the nation's largest and most dynamic universities. More than 60,000 students are enrolled in the University's 10 academic colleges with approximately 9,000 pursuing graduate or professional degrees. Texas A&M University is a major research university with a growing international focus, and outstanding public and private support and the College of Veterinary Medicine & Biomedical Sciences has just celebrated its 100th year anniversary.

Interested candidates should submit a completed application through the Workday linked below to include a statement of career goals and professional interest, curriculum vitae, and names of three individuals (who have been requested by the applicant to participate in a telephone reference with members of the search committee). Application review will begin on January 30, 2018, and applications will be considered until the position is filled. Inquiries may be directed to Dr. Karen Cornell at (979) 845-3878 or kcornell@cvm.tamu.edu.
