POSITION ANNOUNCEMENT
Clinical Assistant or Associate Professor in Small Animal Gastroenterology

The Department of Small Animal Clinical Sciences, College of Veterinary Medicine & Biomedical Sciences, Texas A&M University invites applications for a half-time (50% FTE; 10-month appointment), clinical-track, assistant or associate professor in small animal gastroenterology. Each applicant must have a DVM degree (or equivalent) and must be a diplomate of the American College of Veterinary Internal Medicine (Specialty of Small Animal Internal Medicine). Applicants must be licensed or eligible for regular or special licenses to practice veterinary medicine in Texas.

The successful candidate will devote up to 40% of his or her time to providing clinical phone consultations to practicing veterinarians concerning the management of difficult gastrointestinal cases. In addition, the successful candidate will devote up to 40% of his or her time to research in small animal and comparative gastroenterology, more specifically in the area of gastric disease and protozoal disease. The successful candidate is expected to develop original research projects, identify funding for such research projects, and perform the projects by supervision of technical staff and graduate students. The successful candidate is also expected to communicate research results orally and in writing. Other duties of the successful candidate will also include administrative support within the GI Lab (10%), service (5%), and teaching (5%).

The GI Lab serves more than 15,000 veterinarians worldwide by providing testing for the diagnosis of gastrointestinal diseases and by providing complimentary clinical consultations for difficult gastrointestinal cases. The GI Lab also is involved in more than 100 research projects (both primary and collaborative projects) in the field of small animal and comparative gastroenterology. The successful candidate will also have the opportunity to interact with over 50 faculty members in the small animal hospital, and 35 interns and residents in the other medical and surgical services in the department.

Texas A&M University is the oldest public institution of higher education in Texas and one of the nation’s largest and most dynamic universities. More than 60,000 students are enrolled in the University’s 10 academic colleges with approximately 9,000 pursuing graduate or professional degrees. Texas A&M University is a major research university with a growing international focus, and outstanding public and private support and the College of Veterinary Medicine & Biomedical Sciences has just celebrated its 100th year anniversary.

Interested candidates should submit a completed application through the Workday linked below to include a statement of career goals and professional interest, curriculum vitae, and names of three individuals (who have been requested by the applicant to participate in a telephone reference with members of the search committee). Application review will begin on March 1, 2018, and applications will be considered until the position is filled. Inquiries may be directed to Dr. Steiner at (979) 862-4046 (phone), (979) 945-6978 (fax), or jsteiner@cvm.tamu.edu (email).
