

VETERINARY MEDICAL PARK

STUDENT EMPLOYMENT APPLICATION

The Aviary Health Complex and other facilities at Veterinary Medical Park house birds: psittacine and passerines. On a semester by semester basis, student employment opportunities become available. Students are hired to work together as a team caring for the birds. Training is provided.

STUDENT ASSISTANT

Job Summary - Avian caretaker who cares for birds by providing food and water; providing clean micro and macroenvironments; assist in facility maintenance.

Learning Outcomes

- 1) Enhance communication and time management skills
- 2) Knowledge of biosecurity
- 3) Knowledge of avian husbandry

Education - Preferred majors in BIMS, WFSC, Animal Science or other biological science major with some experience or knowledge of birds.

Responsibilities – The employee is responsible for maintaining the facility and the bird's environment through sanitation; feeding; enrichment; and clear communications with faculty, staff and team members. This position involves occasional weekend work.

Please complete 1) the application below and submit with 2) a resumé and 3) the course schedule for semester that you plan to start working at the aviary to the Aviary Manager, Debra Turner, at DDTurner@cvm.tamu.edu.
