

Schubot Center for Avian Health

Avian BornaVirus Testing Services

Texas AgriLife Research
Texas A&M University
College of Veterinary Medicine and Biomedical Sciences
College Station, TX 77843-4467

SUBMISSION FORM

PCR: Please collect a fresh fecal dropping or a cloacal swab and store at refrigeration temperature. A series of three fecal collections one week apart is recommended to screen for the virus. Use a leak-proof tube. If collecting three time point samples from a bird, they may all go into the same tube. Each tube submitted will be charged \$75.00.

SEROLOGY: From whole blood, collect no less than 6 uL of serum or plasma to ship on ice. Each tube submitted will be charged \$75.00.

RESULTS: An email with results attached will be sent within 10-15 days. Please note that the university is closed around Spring Break, between Christmas and New Years Day and a few major holidays so please call in advance to confirm we are here for receiving packages.

SHIPPING : Follow proper protocol when shipping the diagnostic specimens. For instance, wrap leak-proof tube(s) in absorbent material and double bag prior to shipping on ice packs. Please email menciocp@tamu.edu when package is shipped so we can track the package.
