Temporary Lecturer in Equine Internal Medicine
Position Description (Clinical-Track)
Department of Large Animal Clinical Sciences
College of Veterinary Medicine & Biomedical Sciences
Texas A&M University

The Department of Veterinary Large Animal Clinical Sciences, College of Veterinary Medicine & Biomedical Sciences, Texas A&M University invites applications for a temporary lecturer position in Equine Internal Medicine (EIM). The position is for a minimum duration of one (1) week (5 business days and 2 weekend days) during the months of January 2022 through May, 2022. Applicants are required to have interest, experience, training, and expertise in equine internal medicine. Applicants must have completed an ACVIM Large Animal Internal Medicine residency and be qualified to take the ACVIM certification examination. Applicants are desired that also have experience and expertise in equine emergency and critical care. Candidates must be eligible for licensure in the state of Texas, licensed prior to employment.

The locum position will be expected to:

1. Lead the EIM Service in patient care and instruction for at least a 7 consecutive day period;
2. Participate and contribute to instruction of interns, residents, and fourth year veterinary students assigned to the EIM service;
3. Provide patient care for elective appointments, in-hospital cases, cases that are transferred from the after-hours emergency service and daytime emergency equine patients;
4. Provide consultative services to referring veterinarians, on an as requested basis;
5. Participate and provide instruction during student and house officer educational rounds; and
6. Provide after-hours EIM emergency duties in equine internal medicine, as assigned.
