COLLEGE OF VETERINARY MEDICINE
& BIOMEDICAL SCIENCES

Department of Large Animal Clinical Sciences
4475 TAMU

Temporary Lecturer in Equine Soft Tissue Surgery
Position Description

Department of Large Animal Clinical Sciences
College of Veterinary Medicine & Biomedical Sciences
Texas A&M University

The Department of Veterinary Large Animal Clinical Sciences in the College of Veterinary Medicine & Biomedical Sciences at Texas A&M University invites applications for a full-time lecturer position in Equine Soft Tissue Surgery. This position is for a minimum duration of 6 months during the months June 2022 through June 2023. Applicants are required to have interest, training and expertise in equine soft tissue surgery. Preference will be given to candidates who are board-eligible or have achieved diplomate status in the American College of Veterinary Surgeons. Candidates must have a DVM/VMD, or equivalent degree, and must be eligible for licensure in the state of Texas, licensed prior to employment.

The successful candidate will be expected to contribute to the clinical teaching and patient-care missions of the College of Veterinary Medicine & Biomedical Sciences independently and collaboratively. The Equine Soft Tissue service provides expertise in the diagnosis and treatment of equine upper airway disorders including sinus/dental disease, urogenital procedures such as cryptorchidectomy/ ovariectomy, gastrointestinal surgery, wounds, skin tumors and hernias. The Equine Soft Tissue service is responsible for day-time emergency coverage and participates in the after-hours surgical rotation with other faculty. Surgical support to the food animal emergency service is occasionally required and consists mainly of urogenital procedures on ruminants. Teaching responsibilities will include didactic and laboratory teaching to professional veterinary students, as well as mentoring and training of large animal surgery residents.

The successful candidate will be expected to:

1. Provide clinical expertise in the diagnosis, surgery and post-operative care of equine patients on the equine soft tissue service
2. Provide equine soft tissue services for emergencies presenting to the veterinary medical teaching hospital daytime and after hours
3. Participate and contribute to instruction of interns, residents, and students assigned to the equine soft tissue service
